

## Secret Message Encrypting And Decrypting Application

Aim:

To create a simple app to encrypt and decrypt the messages. The app also secures the user with a password.

How to use this application?

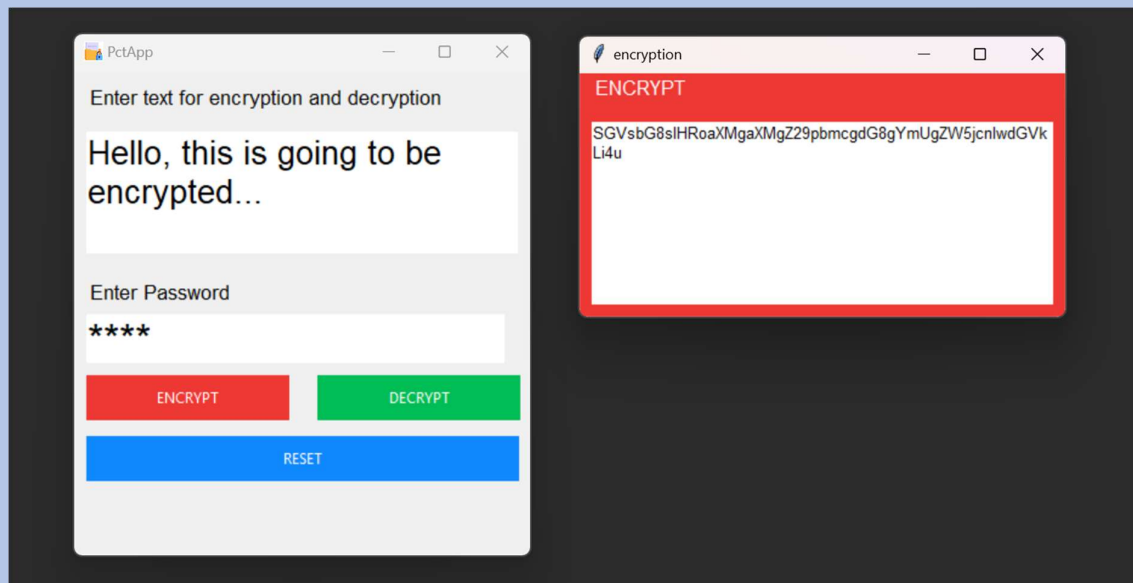

# ENCRYPTION

Step 1 : Enter the message you want to encrypt

Step 2 : Press the Red coloured Encrypt Button

Step 3 : Copy the encrypted message and use it  
Through any messaging application

## DECRYPT

Step 1 : Paste the code in the text box

Step 2 : Press the Green coloured Decrypt button

Step 3 : Read the decrypted message from the  
opening window of green frame
